ABOUT US

Shipcare Marine Consultants is a dynamic consultancy firm in Greece with a strong team of Naval Architects and Marine Engineers Surveyors and Associates Surveyors, with a combined wealth of experience of many years in the field will guarantee to fulfill its goal. Shipcare Marine Consultants is committed to provide professional services of high quality to our Customers. We cover a broad field of services to shipping that will be of assistance to our clients. We "Care" for the Ship and we can guarantee customer satisfaction.

PROFILE

With a strong team of Surveyors and Associate Consultants we combine Technical Knowledge with industry practical experience and we are committed to provide assistance and advice of the highest quality to our clients.

- Our Surveyors are fully qualified Naval Architects and Marine Engineers. They have served the Greek Shipping accumulating many years of experience in all fields of Technical operations. They are fully qualified and experienced in all types of Marine surveys. We have concluded successfully many Hull and Machinery insurance claims for Owners, P&I Clubs and Underwriters. Our Surveyors have acquired considerable experience in the Offshore Industry and LNG sectors. They are experts in LNG propulsion and all legislative and technical requirements for LNG/CNG supply chain and bunkering solutions.
- In Safety Management Systems our experts have been involved in Safety Management since 1996. Their commitment in Safety Management and their in depth knowledge is evident from their lengthy credentials. They are lead Auditors and Assessors in all fields of Safety Management ISM / ISPC / ISO / EFQM / OHSAS and have Certification on all related Safety Management Systems. They have been successful in obtaining the highest Certification on all the above systems in well-known Shipping Companies. Their in depth knowledge on the subject and their commitment is a guarantee for our customers.
- In the Gas Offshore and Environmental Management our Associates are leading experts in the field. SHIPCARE can deal with any turnkey project in this field and give complete solutions to our customers.
